Task-Preparation for English Offline Conversation Recording

1. Download APP

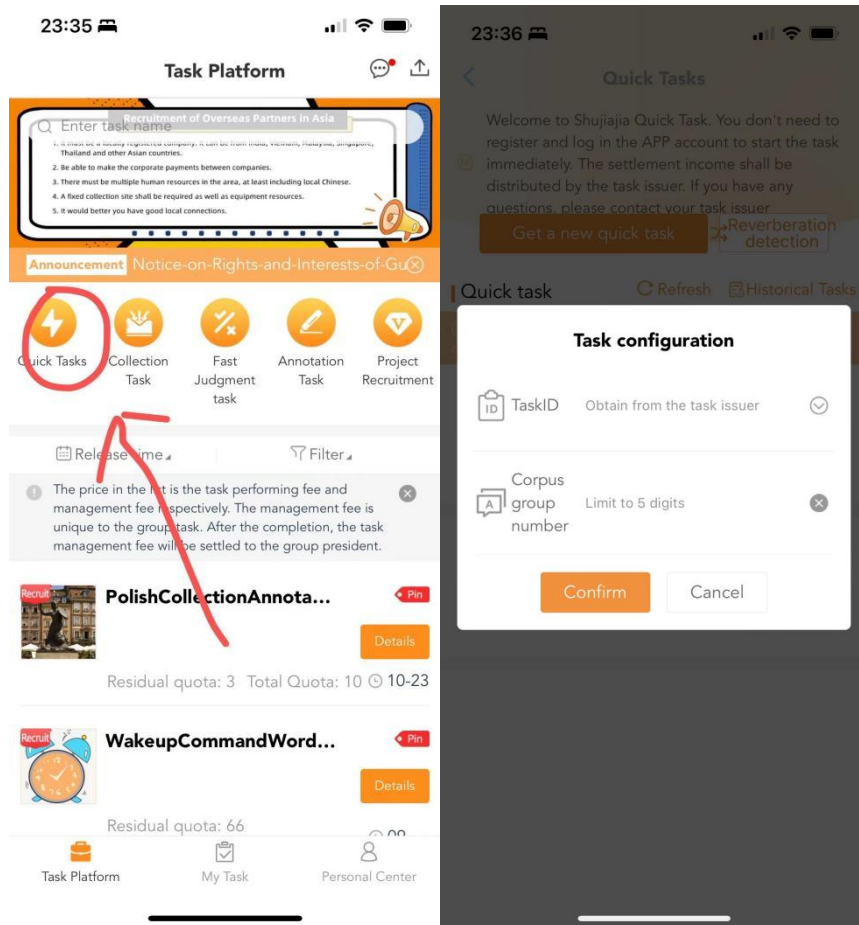

scan code for IOS or Android to download APP. (Phone should be published within 3 years.)

2. How to Apply the Task

Register and log in to the APP, find 【**quick tasks**】， and then enter the **TaskID and Corpus group number** that PM offer.

3. How to Record

1）Equippment and Method

Two phone are needed, one for **Shujiajia APP(phone1),** one should be with a **mobile card(phone2)** and can receive calls normally.

When speakers enter the recording interface, there is a box need you to input phone numeber, just input it, but **do not add"+"**

like: +44 85470245, we just input: 4485470245 in the box

Two phone should be put next to each other, and **phone2 should better mute the microphone** when recording.

2）Environment Requirement

Quiet room, can not have other people talking, laughter, and other noise (mouse click, keyboard sound, air conditioning sound, music, car sound, wind, crash sound, sudden noise, etc.), no echo.

Do not collect in open areas, such as classrooms, auditoriums, toilets, hotel lobbies, etc.

3）Recording Corpus

1) Authorization

Subject 1 should be read by two speakers respectively, and then we can start other Subject/Topic.

2)Formal Voice Recording

The recorder chooses several topics from the topic list according to his own situation and has a free conversation around the selected topics. See Appendix for a list of topics.

Each topic needs to have a voice recorder read the password before the conversation begins: "Project number + project voice collection", and then the recording person needs to indicate their group ID, such as **"I am speaker No.1 / No. 2"** (This ID should always be consistent for each group of different topic quality inspection and correspond to the recording person information table, so as to ensure that the information of each recording person can be completely exported in the subsequent export). Once this is done, the conversation begins around the chosen topic.

tep 1: Register the online form

The following fields are required

Date 日期	Task ID 任务ID	Group id 组号	Host ID (Attendance password) 参会密码	Name	01/02	Gender	Age	Place of birth	Growth areas 成长塘	口音	Mobile phone models 手机型号	APP/Phone	Topic	topic number	Start time	End Time	Duration 持续时间
2023/6/29	301375	306	-	melanie delos santos	01	Female	31	Philippines	cavite	YES	oppo reno 7z	APP	Dream	30			21
2023/6/29	301375	306	73714227	marry christine madayag	02	Male	31	Philippines	cavite	YES	Techo sparks 6 air	Phone			15:11	15:32	

Step 2: Sign the license agreement

Note：

1.The name must be the full name

2.You need to add 01/02 before your name

3.Email addresses need to be filled out by both people, and can not be the same

4.Don't personalize your signature

Examples for adults are as follows:
